

PARK LANE ABSEILING

INDUSTRIAL ABSEILING AND
ACCESS/RIGGING SOLUTIONS

Park Lane Abseiling can help you access difficult to reach work sites in almost any environment from high-rise buildings, lighting towers and bridges to refineries, factories and warehouses.

We are experienced tradesmen who are also rope access trained.

The applications of rope access are almost limitless in engineering, inspection, building maintenance services, coating (painting, cladding etc.), cleaning, bolt installation/testing, maintenance of wind farms, film and photographic work, advertising etc.
